YOTTADOTS CANVAS · PATTERN 1

# The Central List Canvas

What does the centre decide? Everything else stays with the value streams.

Organization | Date | Version

## 1 What the centre decides

Short. Public. Named decisions, not departments.

| Decision | Why central? | Owner | Review by |
|---|---|---|---|
| Mission and vision | | | |
| Strategy | | | |
| Ranked goals (OKRs, KPIs) | | | |
| Agreed guardrails | | | |
| Capacity and money (new teams, suppliers, budgets) | | | |
| Other (only with a strong reason) | | | |

## 2 Stays with the value streams

Examples. Make explicit what people often ask about.

- Method
- Planning
- Team set-up
- Tools
- Roles
- Meetings
- Priorities within the goals

Also ours:

## 3 Grey zone

Unclear who decides? Write it down here.

**Until the list changes, the value stream decides.**

| Decision | Resolve by |
|---|---|

## 4 How this list changes

Adding to the list is a decision of its own: announced, with a reason.
Value streams can object (pattern 2) or propose (pattern 9). Review at least once a year.

Owner of this list | Published at | Next review

## 5 Check

- [ ] Fits on one page
- [ ] Names decisions, not departments
- [ ] No catch-all item
- [ ] Public to everyone
- [ ] Includes the grey-zone rule
